National Employment Standards

National Employment Standards

The National Employment Standards (NES) are 10 minimum employment entitlements that have to be provided to all employees.

The national minimum wage and the NES make up the minimum entitlements for employees in Australia. An award, enterprise contract, enterprise agreement or other registered agreement (including enterprise agreements) can provide for conditions that are less than the national minimum wage or the NES. They can't exclude the NES.

- ### Anti-Discrimination Law
- Age (young/old)
 - Sex or sexuality
